Project Name	Automated Network Request Management
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement Selected
Problem Statement: Manual network request handling leads to delays, repeated follow-ups, and lack of transparency in the request process.

Step-2: Brainstorm, Idea Listing and Grouping

- Self-service portal for request submission
- Automated approval workflow
- Automatic task assignment
- Real-time request tracking
- Email notifications

Final Idea: Develop an automated network request management system in ServiceNow to improve efficiency, reduce manual effort, and provide faster request processing
